The background of the image is a complex, abstract geometric pattern composed of numerous white and light gray triangles and hexagons. These shapes overlap and interlock in a way that creates a sense of depth and movement. Some of the triangles contain darker, almost black, triangular voids, while others have small, bright white or blue highlights that suggest light reflection or internal structure.

The background of the image is a dark, textured surface, possibly a painting or a photograph of liquid. It features swirling patterns of light blue, white, yellow, and orange, resembling a celestial body like Jupiter or a nebula. The overall mood is mysterious and artistic.
